<i>Technical instruction to work with Windows Seven</i>			

## Procedure to install HyperTerminal and USB driver on Windows Seven or Vista 32 bit

### 1. Intended audience

CE+T integrator, production facilities, and customers needing to use HyperTerminal for TSI with Windows Seven or Vista

### 2. Purpose

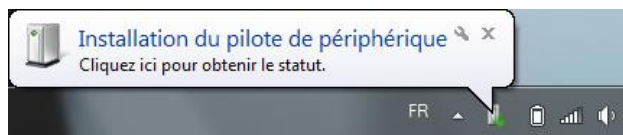

Install a compatible HyperTerminal for Windows Seven or Vista 32 bits  
Install USB driver

### 3. Driver installation for Windows seven 32 bit

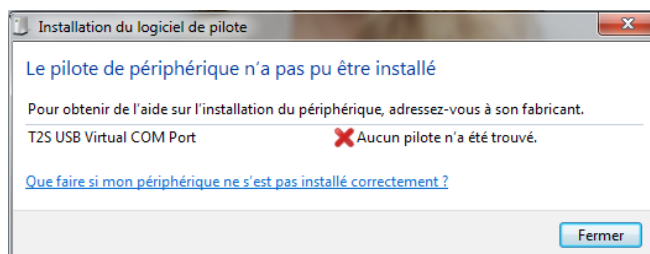

a) Download the driver CET\_T2S.inf from our website, or use the provided it in this folder.

WEB SIDE ADDRESS : <http://www.acbackuptsi.com>  
LOGIN : **T322010000** - NO PASSWORD

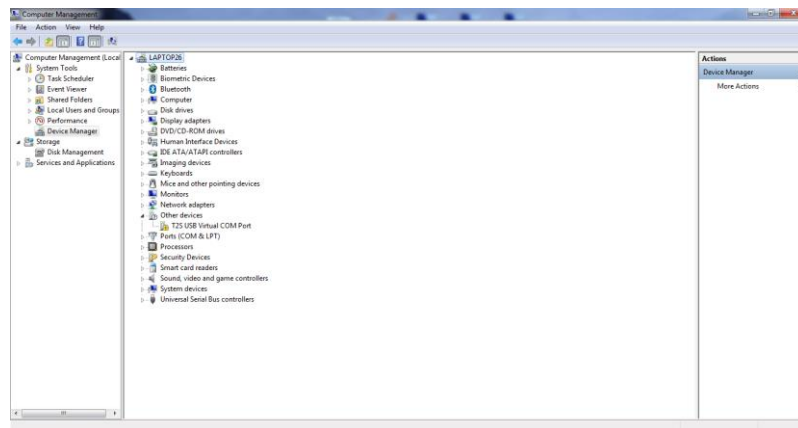

b) Connect the USB cable between T2S and laptop.

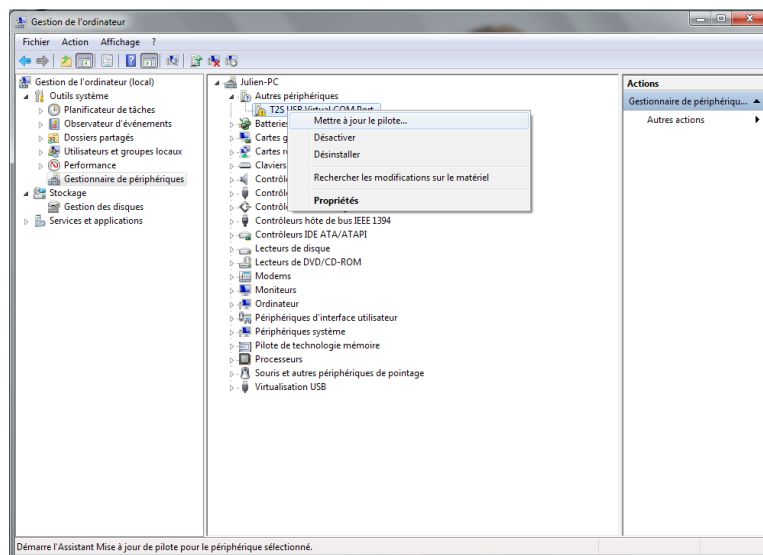

c) Windows shall prompt system cannot find suitable driver. Close the window or if message doesn't appear, go to the next step

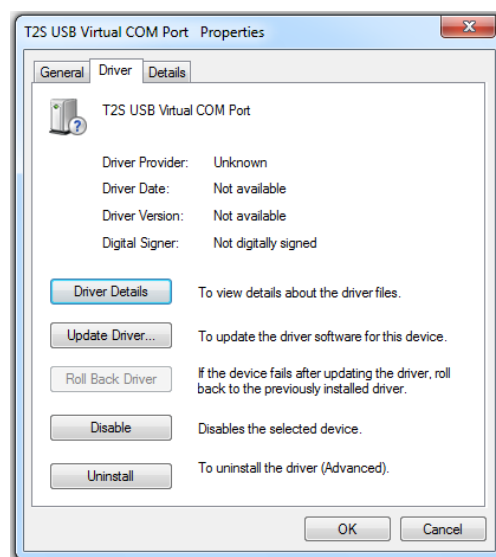

d) Open the window « Computer Management», in this window select « Device manager ». Cross check if T2S USB virtual com port appears in “Other devices” with a warning

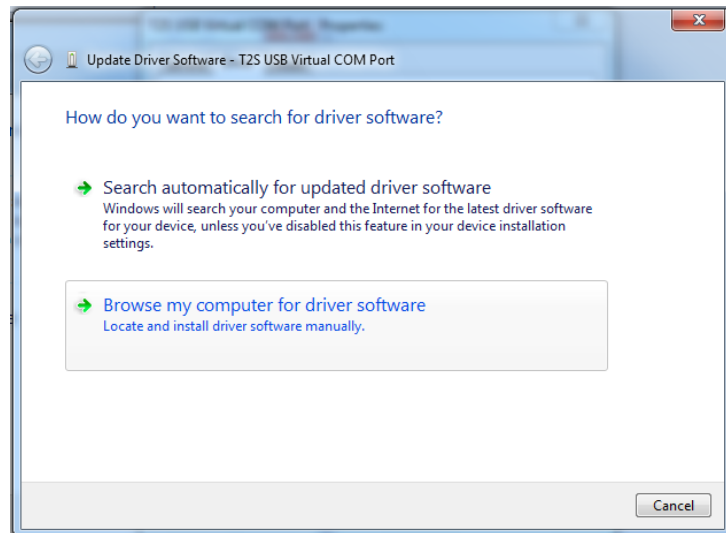

e) On the T2S virtual port press with the right mouse button and select « Properties »

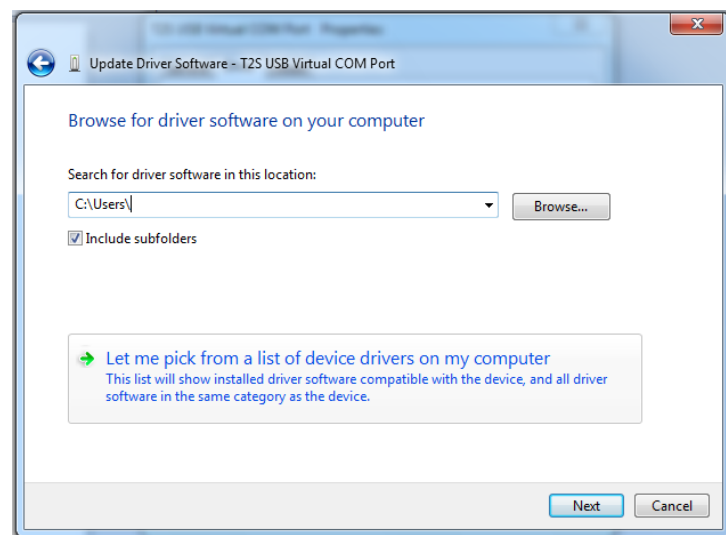

f) Sélection « Update Driver » in the driver tab.

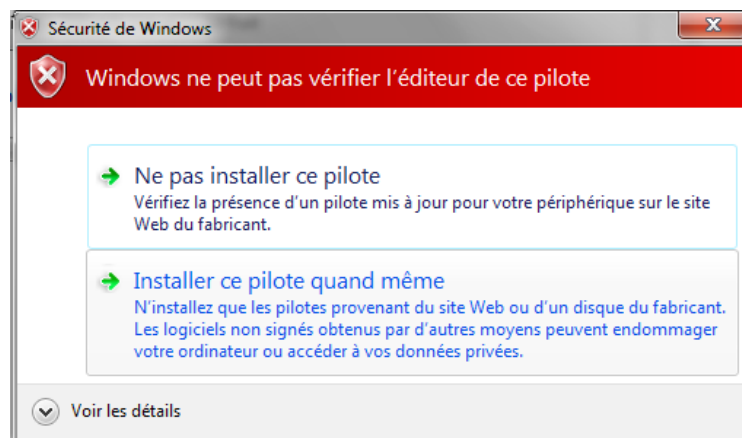

g) Sélectionner « Parcourir mon ordinateur pour les logiciels de pilote »

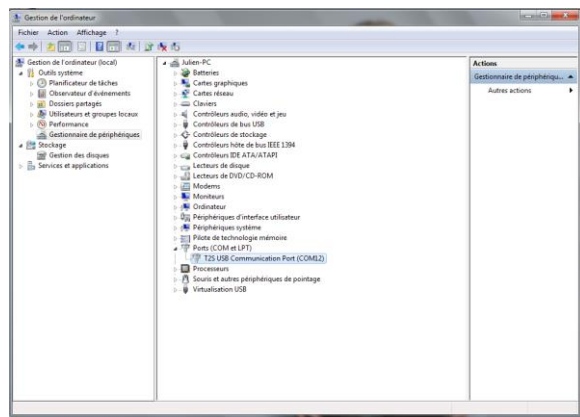

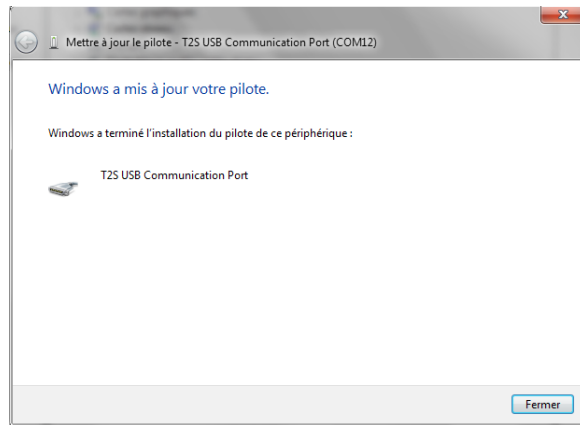

h) Sélectionner « Laissez-moi choisir parmi une liste »

i) Windows vous avertit, mais vous devez continuer quand même

j) Laptop shall prompt with Windows has updated the driver.

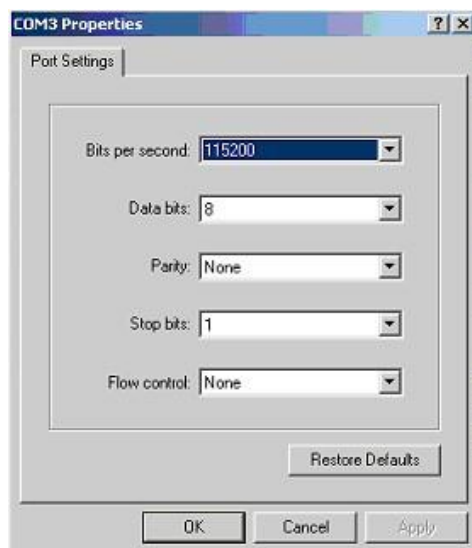

#### 4. Hyperterminal installation for Windows Seven and Vista 32 Bit

Unzip the htpe63.rar file, and install application on your computer following intuitive procedure

#### 5. Communication with T2S.
